

**JOIN BULLEN ULTRASONICS
FOR YOUR ROBOTICS
INTERNSHIP OR
PRE-APPRENTICESHIP!**

**SPEND ONE-ON-ONE TIME WITH BULLEN'S CONTROL'S TEAM TO
EXPERIENCE HAND-ON LEARNING IN AUTOMATION.**

YOUR OPPORTUNITY

For 50 years, Bullen has remained a globally recognized leader in ultrasonic machining of high-quality components used in semiconductors, MEMS, transportation, defense & aerospace, medical & life sciences industries.

You have a great opportunity during your pre-apprenticeship to learn about the type of company that interests you and believes in your future. Bullen offers competitive wages, health insurance and retirement for part-time and full-time employees, tuition reimbursement, extensive job training opportunities, apprenticeships, mentorships, employee resources groups, activities and more!

DESIGN INDUSTRIAL MACHINE CONTROL SYSTEMS

- Solidworks Electrical

PROGRAM PLC, HMI, ROBOT, AND SERVOS

- Rockwell (AB) Studio 5000 Software
- Rockwell (AB) Factory Talk Studio
- Fanuc R30iB Plus

DEBUG

- Test our code against real-live conditions to ensure proper outcome

CONTINUOUS IMPROVEMENTS

- Finding ways to reduce cycle-time, cost, or scrap
